

NEWS / LIKE GRANDMA'S WALLPAPER

Like the pressed flowers your Grandma had, but better

Rhode Island-based artist, [Jenny Brown](#) works in flowers the way others work in watercolors or pastels. Her latest pieces are soft, pressed flower collections pasted over pastel backgrounds. Incorporating found items like gold foil paper and leaves, Brown adds in bits of darkness that juxtapose the delicate flowers and backdrops. These colorful, lacey, collaged and painted pieces remind us of Grandma's wallpaper.
